# Fundamental CSR Policy

The NTT Communications Group is committed to addressing social issues through ICT. We believe that it is essential to identify the diverse potential risks inherent within the global society and strive to avoid or mitigate such risks.

While we prepare for global risks as the responsibility of an ICT company that is sustained by stakeholders around the world, we also view this responsibility as an opportunity to focus on the four priority issues for realizing our goals for society.

Supporting the UN's  
SDGs as the NTT Group

In fiscal 2016, the NTT Group announced its support for the UN's Sustainable Development Goals (SDGs). As a member of the NTT Group, we also began promoting efforts to contribute to the SDGs in fiscal 2016. We have been training employees to raise awareness of CSR and the SDGs and will seek to achieve these goals through business activities, including the CSR Priority Activities linked to them.

## NTT Communications CSR Management

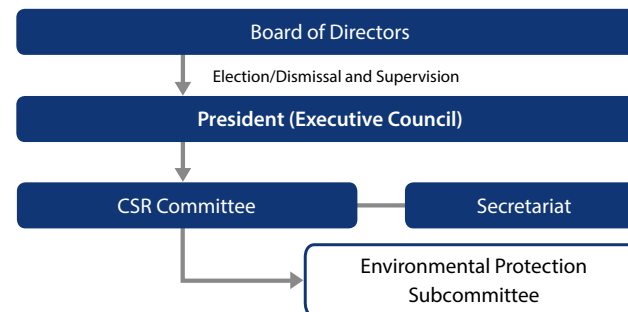

### > CSR Promotion Structure

The NTT Communications Group promotes CSR initiatives through the CSR Committee. Chaired by the managing director in charge of CSR, the committee is responsible for establishing a structure for implementing management initiatives from economic, environmental, and social perspectives. Under this committee we have set up the Environmental Protection Subcommittee.

The CSR Committee meets twice a year to report on the progress of CSR activities and to consider and implement measures for promoting the activities. In fiscal 2019, representatives of 13 major Group companies attended the CSR Committee meeting. Matters reported to and discussed by the committee, including important information related to social or environmental risks, are shared with the Board of Directors as needed.

We will continue to promote and establish our CSR initiatives across the entire NTT Communications Group by continually discussing the issues during regular meetings of the CSR Committee.

#### ◆ CSR Promotion Structure

### > Assessment Process for CSR Management

To ensure the effective functioning of our structure for promoting CSR activities, we have continuously operated an established mechanism for reviewing the results of our activities.

Specifically, we regularly establish CSR KPIs that serve as targets for key CSR activities for each fiscal year. Moreover, we gauge the effectiveness of our CSR management by verifying and reviewing the level of achievement every year.

These processes are implemented by the CSR Committee, and the chairperson is responsible for achieving the CSR KPIs and executing the activities.

The committee is charged with confirming and revising the CSR management mechanism as needed, including reviewing the Fundamental CSR Policy and updating the KPIs.

#### ◆ PDCA Cycle for CSR Management

In fiscal 2019, we considered our next CSR strategy based on our newly established Mission and Core Beliefs, and in fiscal 2020 we plan to promote initiatives that place even greater emphasis on diverse, newly emerging social issues and SDGs through our business activities.

### > Process of Identifying Materiality

Having decided on the medium-term targets and guidelines to steadily disseminate and put into practice the Fundamental CSR Policy, NTT Communications Group has been stipulating CSR Priority Activities based on an analysis of their importance and deploying PDCA activities. The CSR Priority Activities were identified through the following process.

Step 1

Sorting the Issues

We assessed the impact of each stage of the NTT Communications Group value chain by referencing a variety of international guidelines and initiatives, such as the UN Global

Step 3  
Identifying Materiality

We evaluated the issues to be addressed by plotting them on a matrix according to their influence on stakeholder decision making and recognition and their degree of impact on the economy, environment, and society by the NTT Communication Group's business activities.

We identified the CSR Priority Activities to be addressed by the NTT Communications Group based on the results of prioritization with due consideration for maintaining consistency with our Fundamental CSR Policy.

## > CSR Priority Activities and Medium-term Targets

## > Outside Advice for Management

As a global ICT company, we believe that we have an important responsibility for conducting business with due consideration to the diverse outlook of our stakeholders. With this in mind, each executive not only participates in dialogues as part of daily business but also takes part in internal and external meetings and individual interviews. To incorporate the perspective of sustainability into our business strategies, we believe it is important to exchange opinions with internal and external experts, and we will continue to convene dialogues involving management and outside experts.

Dialogue with an external expert (January 2020)

In fiscal 2019, we invited President Masahiko Kawamura of Sun Messe Innovative Network Center to take part in a dialogue with our CSR Committee chairperson. Having reached the milestone year of our 20th anniversary, we addressed issues such as meeting public expectations as exemplified by the SDGs as well as our challenges and outlook for the future, and we received valuable advice for our management strategy. Ongoing dialogue with experts by department personnel delegated by management to promote the sustainability strategy is shared with management as appropriate by the CSR Committee.
