

# Enterprise Cloud for SAP® Solution

## SAP HANA® Solution

SAP® Certified in Cloud Services

SAP® Certified in Hosting Services

Certified by SAP, combined with the network, NTT Communications Enterprise Cloud and Managed Services bring reliable and cost-effective solution to enterprise customers around the globe.

### To improve reliability and scalability of SAP systems

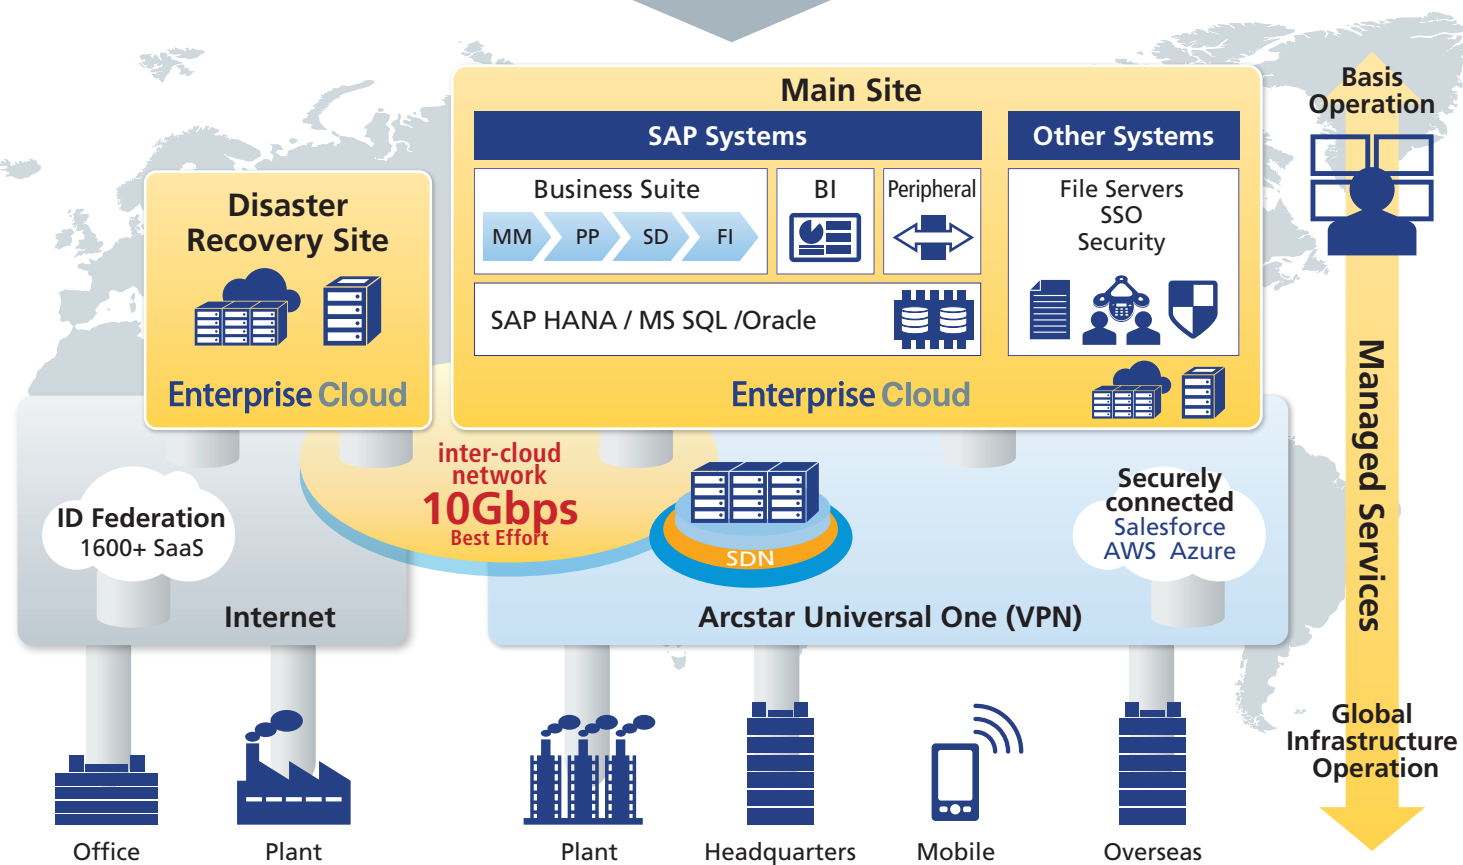

To catch up the rapid market change with agility leveraging elastic IT infrastructure

To build robust and secure infrastructure for enterprise applications

To reduce TCO by strategic outsourcing of IT operation

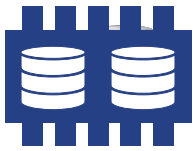

## Solution Features

SAP Solution by NTT Communications covers in one contract from Cloud Services (IaaS) to Professional Services.

### Varied Cloud Infrastructure

#### HANA

Support **SAP HANA's** scenarios such as ERP, BW and Analytics.

#### Private

Leverage private cloud for high **performance** or high **availability**.

#### Public

Integrate with public cloud for **quick launch, short term use** or **elastic resource**.

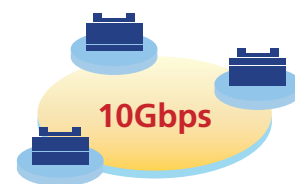

### Elastic Network Services

#### Virtualized Network

**SDN** eases the system design.

#### 10Gbps Network

**10Gbps** inter-cloud network enables disaster recovery for mission critical applications.

#### Multi-Cloud Connect

Secure connection to 3rd party IaaS. **ID federation and SSO** for 3rd party SaaS.
